GEN. PERSHING
WILL COMMAND
A FIELD ARMYOf Five Corps Which Will
Operate in Area North
of the MarneRETAINS POST AS CHIEF OF
AM. EXPEDITIONARY FORCESUnderstood That Other
Armies Will be Formed
Shortly

(ASSOCIATED PRESS TELEGRAM)

With the American Army in France, Sunday, Aug. 11.—Organization of the first American field army of five corps has been completed. The army will be commanded by General Pershing and, it is understood, will operate in the area north of the Marne from which the Germans have been driven. The American divisions which participated in that drive have been under French command but are not included in the first army.

General Pershing, who retains his post as chief of the American expeditionary forces, after a time may relinquish the command of the first army, but possibly not until the organization of a second army is well under way. Meanwhile he will have two headquarters, at the first army as well as at general headquarters.

It is not anticipated that creation of the first army will see any decrease in the spirit of co-operation. While the Americans have operated under the higher command of the French and British recently, the French had served under American corps commanders and it is expected this interchange will continue.

The step is regarded as the most important development in the organization of the American expeditionary forces to date. It is looked upon as the natural development of the 1917-18 scheme of organization and training by which regiments after training were merged into divisions under the staff direction. The creation of the first army brings a great American force under American command but under the orders of the generalissimo, Marshal Foch.

The size of the army has not been announced, beyond the indication that it contains five corps commanded by Major Generals Liggett, Bullard, Bundy, Reed and Wright. Each corps as composed of several divisions including 300,000 troops of all arms, while the corps in addition will have its complement of auxiliary troops, supply troops, air squadrons, tanks and heavy artillery. It is understood that other armies will be formed shortly in view of the recent Washington announcement that 1,300,000 troops already had sailed for France.

CLAIM THE ALLIED
ADVANCE IS BOUND
TO BE CONTINUED

(Havas Agency)

Paris, Aug. 12.—Military commentators in the Paris newspapers express confidence that the allied advance, while slowed up, is bound to be continued.

"It is certain that the German retreat is not over," says L'Homme Libre, while the Petit Parisien declares that the capture of Lassigny by the French is only a question of hours. In fact the entire group of hills between Lassigny and the Oise is being encircled, the Petit Journal declares, and must inevitably be evacuated.

Many of the critics point to the fact that because of his serious losses under the allied blow the enemy has been compelled to use troops he was reserving for future operations, while the allies, it is claimed, have been mastering the enemy with only their line troops, without drawing upon their reserves. The Germans, it is pointed out, increased their losses by their violent reactions on Sunday for the purpose of covering their retreat and protecting the line of their already insufficient communications.

GERMAN GENERALS
WERE CASHIERED

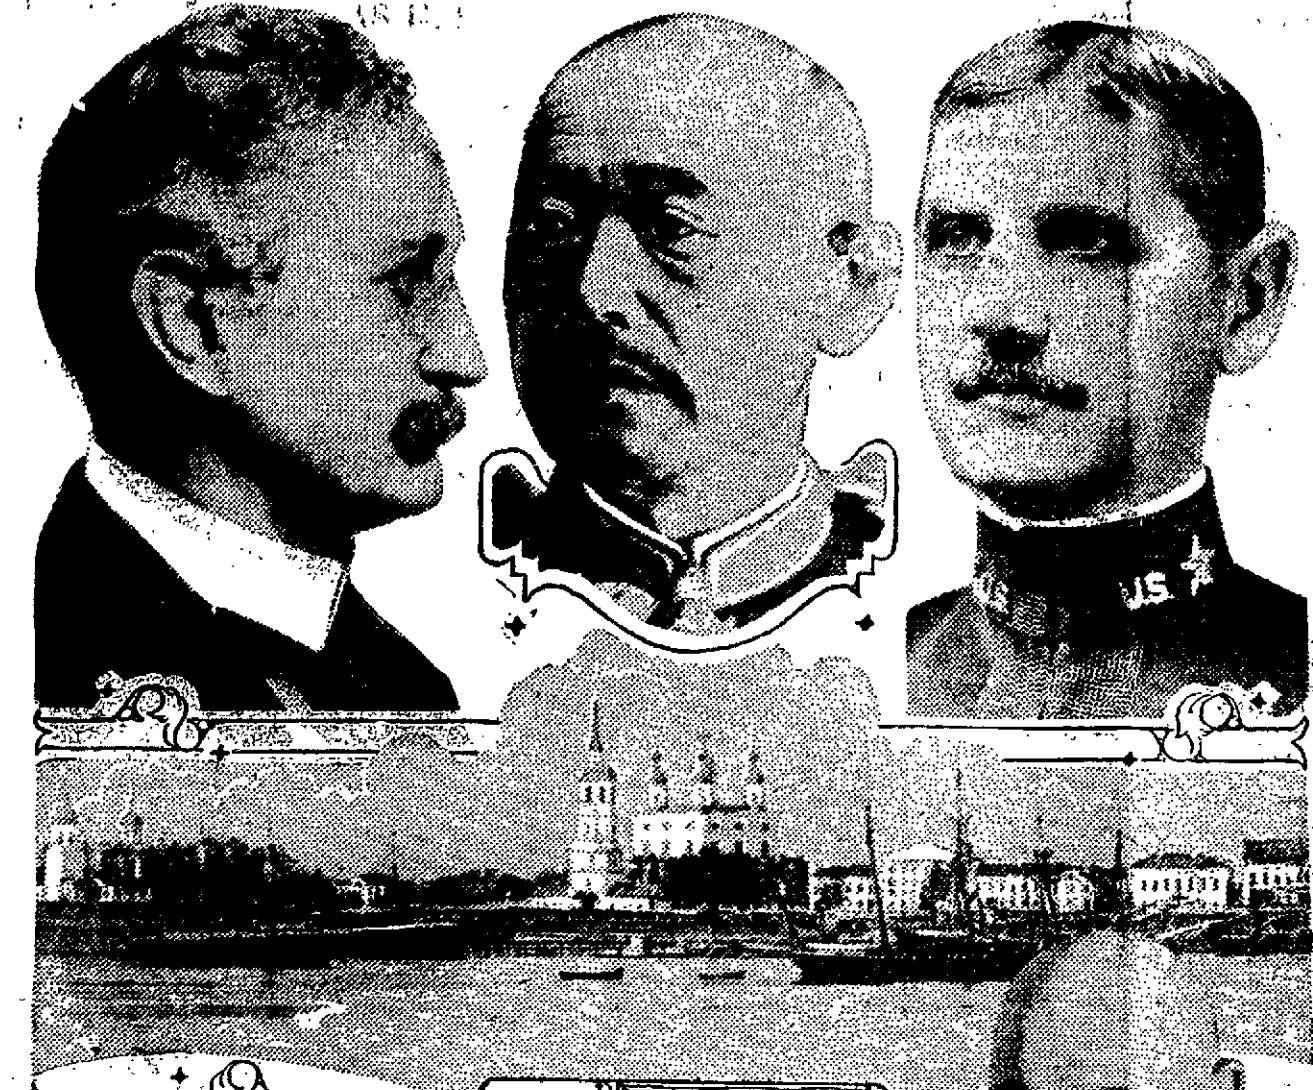

London, Aug. 12.—Three German generals recently commanding near Montdidier, have been cashiered for neglect of duty, according to Belgian reports received in Amsterdam and transmitted by the Exchange Telegraph company.

A large number of soldiers were court-martialed at St. Quentin, Saturday, for high treason.

The Germans in Belgium are showing signs of great uneasiness and the emperor is reported to have moved to Brussels.

EMPLOYEES GET INCREASE.

New York, Aug. 12.—Announcement of a general increase of 10 per cent in wages to all employees of the Western Union Telegraph company, belonging to the association recently organized by the company, was made here today. The increase, retroactive from July 1, applies to about 45,000 workers.

RUSSIAN SITUATION DRAWS ATTENTION OF AMERICANS
U.S. TROOPS JOIN OTHER ALLIED FORCES THERE

Ambassador Francis B. Saypol, Major General W. S. Graves above, view of Archangel, Siberia, and General Horvath, below. Map shows location of points mentioned in Siberian news and the railroads available for moving troops and supplies.

Americans will keep one eye on the Russian situation following the official announcement that the U. S. will send an armed force to join the troops of the other allied countries in Siberia and that Major General William S. Graves will lead the American troops there. Archangel is one of the principal sea ports and cities in the new republic.

set up in Siberia. General Horvath is head of the new provisional government. Baron Uveghara, chief of staff of the Japanese army is mentioned as being the logical man to

lead the allied forces there because Japan will have the greatest number of men in that country. The generalissimo has not been chosen, however.

THREE MORE VESSELS DESTROYED
BY GERMAN SUBMARINES OPERATING
OFF OF THE NEW ENGLAND COAST

(ASSOCIATED PRESS TELEGRAM)

Washington, Aug. 12.—German submarine raiders operating off the North Atlantic coast have destroyed three more vessels, the navy department today announced.

The British steamer Penitence, of 4,139 gross tons, was torpedoed 100 miles east of Nantucket lightship yesterday morning. The Swedish steamer Sydland, of 3,031 gross tons was sunk by bombs August 8, 100 miles southeast of Nantucket and American schooner reported as the Herman Winter but whose identity has not yet been definitely established was destroyed by gun fire yesterday 200 miles east of New York. All members of the crew of the Herman Winter were rescued, but the enemy's dispatches did not clear up the fate of the crews of the other vessels.

The Penitence and Herman Winter were sent down in the vicinity of Georges Bank off the Massachusetts coast where a submarine came to the surface in the midst of a fleet of American vessels, nine of which were destroyed.

It was just three weeks ago yesterday that a submarine made its appearance off the Massachusetts coast in the second raid of submarines in American waters since the United States entered the war. A tug and three barges were destroyed by gun fire. The submarine next was hard off the coast of Nova Scotia where several steamers and sailing vessels were sunk. In the meantime a second U boat appeared off the Virginia coast destroying the American tank steamer O. B. Jennings. The Diamond Shoal lightship off Cape Hatteras, N. C., and other craft. In some quarters the opinion was held today that the submarine account for all the vessels taken off New England and that in all probability it was the one which had been operating in the south. Some officials held however, that possibly the third submarine had come to this side of the Atlantic.

Later reports to the navy department revealed that the dispatch relating to the Herman Winter had been garbled in transmission. The coasting steamer Herman Winter had reported that a fishing schooner was sunk on Sunday off the Massachusetts coast. The name of the craft was not given.

(ASSOCIATED PRESS TELEGRAM)

Nantucket, Mass., Aug. 12.—Sinking of the British steamer Penitence, by the German submarine off Georges banks, was reported here today.

The Penitence, a vessel of about 4,000 tons gross, apparently was sunk by the same U-boat that destroyed nine fighting schooners Saturday. First reports made no reference to the crew's safety and gave no details of the attack.

NO NEWS OF CREWS.

(ASSOCIATED PRESS TELEGRAM)

Washington, Aug. 12.—Two British steamers—the Penitence and another, the name of which was garbled in transmission of a navy report, have been sunk by an enemy

submarine off the coast of New England.

Destruction of the British steamer Penitence, and the Swedish steamer Sydland, by a German submarine off the New England coast, was reported today to the navy department. The Penitence was sent down yesterday about 100 miles east of Nantucket and the Sydland on August 8, southeast of Nantucket. No news of the fate of the crews was given in the department's dispatch.

All the members of the Sydland's crew were rescued.

Later the navy was advised that the American schooner, Herman Winter, has been sunk in the same general location. There is no record here of a schooner of that name. An American coastwise steamer named Herman Winter is reported safe in port.

All the vessels are believed by naval officials to have been accounted for by the U-boat which has been operating in North Atlantic waters for two weeks or more. The Penitence was sunk near Georges bank, off the Massachusetts coast, where some 11 fishing boats were destroyed yesterday.

A Boston freight-carrier, the Herman Winter, was of 1763 net tonnage. The Sydland was of 1184 net tonnage.

An Atlantic Port, Aug. 12.—Two steamers with survivors of vessels sunk by German submarines off the Massachusetts coast reported today that they were proceeding to port but the number aboard or the numbers of the ships were not stated.

With the American Army in France, Sunday, Aug. 11.—Two German airplanes have been brought down by American fliers in the last 24 hours on the Toul sector. Official confirmation, however, is still lacking. A third is believed to have been brought down.

The first German shot down was the victim of Captain R. O. Bridgeman of Illinois. The machine was seen to fall in flames near Xivray, Saturday.

Saturday night a patrol of American fliers met four German airplanes near Thiaucourt. Lieutenant Tobin attacked one and it went into a nose-dive.

The second reported victory occurred Sunday morning near Thiaucourt in an air-battle between three German machines and several Americans.

AIRSHIP BROUGHT DOWN.

London, Aug. 12.—A German airship has been brought down in flames north of Ameland, on the northern Dutch coast, the admiral's office announced today.

LENINE WILL
SEEK REFUGE
IN GERMANY

(ASSOCIATED PRESS TELEGRAM)

London, Aug. 12.—Premier Lenine and his chief assistant, Leon Trotsky have fled to Kronstadt, the naval base near Petrograd, according to a dispatch sent out by the semi-official Wolff Bureau of Berlin and printed in Zurich newspapers says a Havas report from Paris.

Reports received in London Sunday that the Bolshevik leaders intended to flee to Germany lent color to the German report that they already have gone to Kronstadt. Copenhagen dispatches Sunday said that the anti-Bolshevik movement in Russia was growing rapidly and that the Bolshevik government virtually had gone to pieces. The reports were taken from the Russian newspapers.

Lenine and Trotsky have been in power since the overthrow of the Kerensky cabinet last November. They negotiated the Brest-Litovsk peace.

SLOVAK FORCES INCREASE.

(ASSOCIATED PRESS TELEGRAM)

Amsterdam, Aug. 12.—The position of the Soviet government in Russia is considered very serious by the Moscow correspondent of the Tageblatt of Berlin. He announces that the Czech-Slovak forces have increased from 7,500 to 300,000 and are being reinforced by Serbians, Cossacks and counter-revolutionists.

TWO KILLED EARLY
TODAY AT BUCYRUS
IN AUTO ACCIDENT

(ASSOCIATED PRESS TELEGRAM)

Bucyrus, O., Aug. 12.—Two persons were killed and two were badly injured early this morning half a mile outside the city when the auto in which they were driving smashed into the abutment of a concrete culvert. Dean Maxwell, of Columbus, was instantly killed and Vaughn Crum, son of H. T. Crum, general manager of the American Clay Machinery company here, was so badly injured he died this morning in a hospital. The other victims are Miss Grace McMichael and Miss Irene Hoot, both of this city. Miss McMichael sustained a broken leg and internal injuries while her companion was badly bruised.

The party was driving at a high rate of speed. It is declared, Maxwell, who was at the wheel, attempted to turn off a brick road when the car skidded and crashed into the abutment.

FAIL TO RETURN.

London, Aug. 12.—The admiralty announced today that six British motorboats had failed to return from a reconnaissance expedition carried out on August 11 along the West Friesland coast of Holland.

UNCONFIRMED REPORT THAT
ROYE HAS BEEN EVACUATED
BY GERMAN TROOPS TODAY

ARMY CASUALTIES

Washington, Aug. 12.—The army casualties list issued today in three sections shows:

Killed in action	57
Died of wounds	10
Died of disease	2
Died of accident and other causes	4
Wounded severely	67
Wounded (degree undetermined)	158
Missing in action	7
Total	305

Killed in action—Corporal Juett Caudie, Frankfort, Ky.; Privates Robert B. Alexander, Hickman, Ky.; Wado Cummings, Mossy Bottom, Ky.; Died of wounds—Privates John W. Meek, Catlettsburg, Ky.; Charles S. Moore, Short Creek, O.; Missing in action—Private Philip Bostler, Cleveland, O.

Wounded severely—Privates Albert L. Whitlow, Hudgins, Ky.; James H. Young, Jackson, Ky.; Wounded (degree undetermined)—Corporal Richard Daunt, Cincinnati, Ky.; Privates John Cattrina, Cincinnati; John P. Cottingham, Newport, Ky.; Raymond S. Dawson, Newport, Ky.; Raymond G. Dewese, Carrollton, Ky.; Robert L. House, Hamilton, O.; James A. King, Cincinnati; Benjamin Roth, Newport, Ky.; Flem Stapleton, Paintsville, Ky.

ITALIAN AIRMEN DROP
LITERATURE IN VIENNA

Zurich, Aug. 12.—The authorities at Vienna have ordered the public to hand over every piece of propaganda literature dropped by Italian airmen last Friday and threaten severe penalties for failure to do so.

There was a wild scramble in the streets for the pamphlets when they were dropped. Some sold as high as 20 crowns.

The Reichspost reminds the Viennese that since the daring Italian flight they no longer can consider themselves immune to the horrors of warfare.

SEVEN YEAR OLD BOY
KILLED HIS FATHER
DEFENDING MOTHER

Cincinnati, Aug. 12.—"I thought that papa was going to kill my mamma and I shot him. Yes, sir, I know how to shoot. I learned to shoot with my rifle that papa bought for me."

These words of 7-year-old Oscar Kleinmeyer, spoken to Coroner Bauer and police officials cleared up the killing of Edward Kleinmeyer, 43, in his home at 1620 Ross avenue, Price Hill, last night.

The killing of Kleinmeyer was the sequel to a day spent at a picnic. Toward evening, Kleinmeyer objected to his wife dancing with others and a quarrel followed.

When they reached home the couple apparently renewed the quarrel and a few moments later two shots in quick succession were heard and a moment later another one was heard. Neighbors who rushed into the house found Kleinmeyer on the floor dead with a bullet in his temple. Mrs. Kleinmeyer and her son were in the apartments.

FORMER HEAD OF
OHIO REFORMATORY
DIES AT DETROIT

Columbus, Aug. 12.—After having served for the past 17 years as superintendent of the state reformatory at Mansfield, Dr. James A. Leonard, aged 64, died at his home in Detroit, yesterday afternoon at 2 o'clock. He was considered one of the country's foremost men in prison affairs because of the methods he instituted at the Mansfield reformatory. Because of a complication of diseases Dr. Leonard was forced to resign his position as head of the institution August 1. He has been ill for nearly eight months.

He is survived by his wife; two sons, James A. Leonard, Jr., and George Todd Leonard, and two daughters, Lucy E. and Laura A. Leonard.

INURED AT TOLEDO BEACH.

Toledo, Aug. 12.—A section of the veranda of the Toledo beach bath house collapsed last yesterday when a crowd took refuge there from a storm, 140 persons falling some distance and 14 were injured. Mrs. O. B. Pearsall suffered the most serious injury, both ankles and one arm being broken.

40,000 PRISONERS AND 700 GUNS ARE REPORTED TO HAVE BEEN TAKEN IN PICARDY
SECTOR BY THE ALLIES IN THEIR
RECENT OFFENSIVEFRENCH ARE CONTINUING THEIR ADVANCE
BETWEEN THE AVRE AND THE OISE RIVER

Germans Mass Heavy Artillery in Region Between Roye Road and the Somme and are Heavily Counter-Attacking—Albert and Chaumes are Believed to be Still in the Hands of the Enemy.—Number of Villages Taken By the French Who Have Also Advanced Their Positions Quite Materially.—Reported That the Village of Bray Has Been Entered by British Troops.

(ASSOCIATED PRESS TELEGRAM)

London, August 12, 4:33 P. M.—American troops are in the suburbs of the Bray and are fighting a continuous battle for the outskirts of the Bray and the Oise.

Only slight changes in the line as a whole are reported in the dispatches reaching London this afternoon but a ding-dong battle is raging all up and down the northern section of the present battle line.

(ASSOCIATED PRESS TELEGRAM)

With the British Army in France, Aug. 12, 2:12 P. M.—There is an unconfirmed report this afternoon that the town of Roye, which the Germans have been defending so desperately, has been evacuated.

British tanks have been seen operating a considerable distance east of that town.

40,000 PRISONERS TAKEN

(ASSOCIATED PRESS TELEGRAM)

Paris, August 12.—Nearly 40,000 prisoners and 700 guns have been taken by the allies in Picardy, according to reliable information here.

London, August 12.—The French are continuing their advance between the Avre and the Oise, according to news received in London today and have captured the town of L'Esclapart, three miles directly west of Roye.

The line on this front now runs from L'Esclapart, south of Roye and continues on in a southeasterly direction through Gurcy, 11 miles southeast of Montdidier. It then curves more to the east and passes through the Montigny quarry to the hill north of Antoval, just northwest of Ribecourt, on the Oise.

The British have captured the western edge of the town of Bray, on the Somme, the advance state.

Apparently the attack on the southern part of the front was being continued by the French this morning. Main interest centered in the sector around the Lassigny-Massif. It is difficult to say whether the French are on the crest, but they must be close to it. The whole position on the southern line depends upon possession of it.

In the region between the Roye road and the Somme the position has been stabilized. The Germans have massed heavy artillery on this front and are heavily counter-attacking.

The towns of Albert and Chaumes seemed today to be held by the enemy, and Roye has not fallen.

NUMBER OF VILLAGES

TAKEN BY THE FRENCH

London, Aug. 12.—French troops have advanced nearer to the important point of Roye from the southwest by the capture of the villages of Armancourt and Tilloloy, according to the official statement from Field Marshal Haig today.

South of the Somme, British troops have captured 200 prisoners. British positions east of Mericourt, south of the river, have been linked with the British lines east of Etinehem, north of the river.

The British positions, south of Lihons, were attacked last evening by the Germans. The attack was repulsed. The statement reads:

Yesterday evening the enemy again attacked our positions, south of Lihons. He was repulsed.

As a result of a successful operation carried out by us immediately south of the Somme, we captured 200 prisoners and linked up our positions east of Mericourt, with the line east of Etinehem on the north bank of the river.

"On the right of the fourth British army our allies made progress yesterday afternoon in the direction of Roye, capturing the villages of Armancourt and Tilloloy."

"On the northern portion of the British front we effected local improvements in our line east of Robecq and between Vieux-Berquin and Merris."

GERMAN HIGH COMMAND
MAKES NIGHTY EFFORT
TO CHECK ADVANCE

(Compiled from A. P. Dispatches)

Mighty efforts are being made by the German high command to check the allied advance through Picardy toward Peronne, Roye and Novon.

On the northern end of the battle line the British have not been able to progress rapidly during the past night, although London reports, unofficially, that the village of Bray has been entered.

In the center strong German counter-attacks seem to have held up the advance against vital points along the line. There is an unconfirmed report, however, that Roye has been abandoned by the enemy. On the right the French are still gaining ground steadily. They have reached the crest of the hills west of the Oise, and have virtually cleared the Matz valley of the enemy.

The battle is still confined within the limits fixed when the French extended the fighting area to the Oise. It has been expected that the combat might spread along the line.

especially northward, but this development has not yet been reported. Interest in the Picardy battle now centers upon the German efforts to stabilize the front along the line from Albert south of Chaumes, and to check the French efforts to envelope the enemy's positions to Lassigny.

There has been an enemy effort which has met with a measure of success to hold the northern flank of the line firmly while the allies have pushed eastward in the direction of Peronne and Ham. On the southern end of the front the Germans have been unable so far to do more than slow down the progress of the French.

In this sector an important advance is reported in the fact that the French have reached Antoval on the crest of the hills, west of Ribecourt. In the German drive early in June, the fall of Antoval proved fatal to French hopes to hold the valley of the Oise, as well as the forest of Carlepoint on the east bank. If Antoval is firmly held by the French the German lines along the Oise, it seems, are in danger and if the French continue to gain the enemy's retirement from territory held along the eastern bank of the river may be forced.

Reports would appear to indicate that the line where the present heavy fighting is going on is not the one (Continued on Page 2, Col. 1)

JAP TROOPS ARE IN
TOUCH WITH CZECHO

The Hague, Aug. 12.—Japanese advance troops are in touch with the Czech-Slovaks, says a Moscow dispatch to the Weser Zeitung of Bremen.

The Czech troops at Vladivostok, who have been in touch with the Japanese for some time, are separated from their comrades in western Siberia who hold the trans-Siberian railroad, west of Irkutsk. The Moscow dispatch probably refers to a junction between the Czechs in western Siberia and Japanese.

SHOT BY PLAYMATES.

Alliance, O., Aug. 12.—Dean Brady, 8, was shot in the abdomen at noon today, police say, by Rinaldo La Civita, a companion. The shooting was accidental. The lad's condition is serious. The boys were playing with a revolver.

NUMBER FINED IN POLICE COURT TODAY FOR PETTY OFFENSES

Two train riders, James Walsh and Vincent Dooley, who gave their residence as St. Louis, Mo., were arrested and brought before the mayor on a charge of train riding. Both are boiler makers and were looking for work. Their sentence was suspended in order that they might take jobs.

Two local drunks were fined \$5 and costs in police court this morning and Charles Steenrod of Buckeye Lake was fined a like amount. Mammie Grubb, was also fined \$5 and costs for intoxication. A local man was also fined \$5 and costs for being and was sent to the city prison.

UNCONFIRMED

(Continued from Page 1)
upon which the Germans have decided to stand definitely on the defensive. On the contrary the present fight appears to have reached the stage presented three weeks ago when the Germans made a stand along the Ourcq river and the heights of Pere-en-Tardenois. This stand, it developed, was for the purpose of permitting the enemy to get his artillery out of danger and remove stores from the threatened region as far as possible.

The coming day or two probably will be marked by savage fighting, especially on the south where the continued progress of the French would weaken the whole German position if it does not turn the flank of the Noyon-Nesle line, which is appears may be the first defensive front upon which the enemy may elect to stand.

The front as it stands today runs in a generally straight line from the Somme southward to Tillois, where it begins to curve eastward until it reaches the Oise. The high ground on the north is proving difficult of capture by the allies while to the south heavy forces of German reserves are reported coming into the fight.

Paris reports, unofficially, that 40,000 prisoners have been taken since Thursday morning. This brings the total number of Germans captured in Marshal Foch's two great drives up to 75,000. The number of guns so far taken by the allies in the two offensives totals almost 1000.

CREWS OF SHIPS SUNK BY U-BOAT TAKEN ON BOARD

(Associated Press Telegram)
An Atlantic Port, Aug. 12.—A British merchant steamer was sunk recently off the North Atlantic coast according to the second officer of the German submarine which sent nine fishing schooners to the bottom off George's Bank Saturday and Sunday. This report was given members of the crew of the Kate Palmer, a fishing schooner, when they were taken aboard the U boat. The fisherman did not learn the name of the Britisher, but were informed that she had two smoke stacks. The men were brought here early today aboard the auxiliary schooner Helen Murley after having been set adrift in a dory by the submarine's commander. They reported that probably six fishermen were cast adrift in small boats after the U boat's attack upon the fleet. Naval and marine men expected, however, that most of these would be picked up today.

The crew of the Palmer reported that probably thirty sailing vessels were in the immediate vicinity at the time of the attack. They said they heard firing nearly all day Saturday. The rescued men included Captain Edward Russell of the Kate Palmer and three of the crew. After their surrender they were ordered alongside the submarine and taken aboard.

Immediately they were sent below and kept there for about an hour while the submarine proceeded in a westerly direction. Later they were told to get into their dory and were cast adrift. They were picked up five hours later by the Murley. They did not see their schooner sunk, but assumed she was destroyed by a bomb.

The fishermen reported that the submarine was 300 feet long and carried a crew of about 70 men. A 6-inch gun was mounted forward and a smaller one astern. The second officer told them the submarine could make 21 knots on the surface.

WILL RECEIVE RETURNS OF THE PRIMARY TUESDAY

The primary election will take place tomorrow and it has almost been lost sight of by recent events on the army fronts and the excessive hot weather. The polls will open at 6:30 o'clock and close at 6:20. The Republicans are having a hot fight for the gubernatorial nomination, while the present incumbent, Jas. M. Cox, will have no opposition.

A congressman from the district is to be nominated as well as a state senator and in the county candidates are to be elected for auditor, representative, sheriff, treasurer, recorder, county surveyor, commissioner and coroner. The Advocate will receive returns from over the state and invites the public to come down and read the bulletins.

The self-made man is apt to admire his own handiwork, even the mistakes he makes.

Patrons of The Advocate PLEASE READ

The War Industries Board of the United States government has ordered that we conserve the supply of newspaper, and in order to do so they have made the following rulings regarding FREE COPIES:

Paragraph 3—"Discontinue the use of all sample or free promotion copies."

This means that "mail subscribers" who have been in the habit of calling at our office for a copy of the paper, must pay for the same at the rate of 2 cents per copy.

Paragraph 4—"DISCONTINUE GIVING COPIES TO ANYBODY, except for office working copies or where required by statute law in the case of official advertising."

Paragraph 5—"Discontinue giving FREE copies to ADVERTISERS, except not more than one copy each for checking purposes."

We will be asked to pledge ourselves to obey these orders within the next few days, in order to help conserve the supply of newspaper.

There are several other paragraphs in the order received by us from the War Industries Board, but the ones above-mentioned effect the PUBLIC only, the others we are to carry out in our office.

The Advocate Printing Company

W. J. BOWERS, Secretary-Treasurer.

WILL REPORT THE MAN POWER BILL TO SENATE THURSDAY

(Associated Press Telegram)
Washington, Aug. 12.—Steps to reconvene so that the administration man power bill extending draft ages from 18 to 45 can be taken up by senate leaders who ordered telegrams sent to all absentees asking them to be present next Thursday when the bill is reported to the senate.

Under the unanimous consent agreement by which the recess was taken, three-days must elapse before any business can be transacted after a quorum has been called and as a result the bill will be taken up next Monday.

An effort by Senator Kirby of Arkansas, to amend the administration man power bill so as to extend the draft ages from 21 to 45 inclusive, instead of 18 to 45 as proposed, failed today in the senate military committee by an overwhelming vote. Senator Kirby announced that he would renew his effort when the bill reached the floor.

The committee could not reach an agreement upon the measure so it could be reported at once as planned, but Chairman Chamberlain said he expected consideration to be concluded tomorrow. In that case he will report it to the senate Thursday and will endeavor to have a quorum present on Monday to take it up immediately without waiting for the vacation recess agreement to expire August 24.

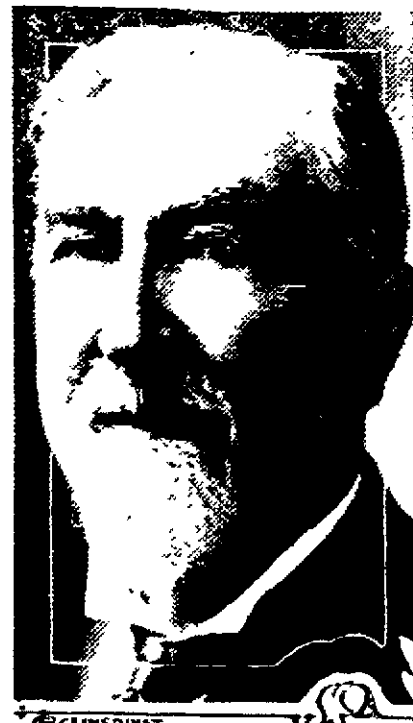

The committee today discussed an amendment by Senator Thomas providing that any order granting deferred classification to any man for industrial reasons shall be revoked if he is absent from work for more than five days. Senator Reed of Missouri proposed some modifications which will be considered when the committee reconvenes tomorrow.

Dogs in Warfare.

Some of the most beautiful as well as some of the most tragic stories of war have for a hero the shaggy, faithful, uncomplaining figure of a dog. Like men, they die at their posts, so that there is constant call for more soldier dogs.

Knit and the world knits with you, drop a stitch and you drop it alone.

WAR GAS VICTIM ON FRONT PORCH

Nathan B. Scott.

Engineers at Camp Leach, while experimenting with what is said to be mustard gas, came near killing former Senator Nathan B. Scott and several members of his family. Scott was sitting on the porch of his home near Camp Leach, Washington, D. C., when the wind carried the gas some distance from the grounds and endangered the lives of many people in the neighborhood. Many birds and small animals were killed.

LEADER OF BRAVES WINS COMMISSION

Percy Haughton.

Percy Haughton, president of the Boston National league club, has won a commission as major in the chemical warfare department. Haughton created a stir in baseball by being the first official in the game to wear a wrist watch. But he has shown the way, patriotically speaking, to those who smiled.

972 NATIONAL GUARD OFFICERS DISCHARGED

(Associated Press Telegram)
Washington, Aug. 12.—In response to a recent resolution, Secretary Baker informed the senate today that of 16,971 National Guard officers, 972 have been discharged for various reasons since the guard was called into federal service. Of that number 464 were discharged upon the recommendation of efficiency boards, and 476 were discharged because of physical unfitness for overseas duty. Thirty were court-martialed and two deserted.

INAUGURATE CAMPAIGN AMONG FACTORY EMPLOYEES

Cleveland, Aug. 12.—The one-week industrial thrift stamp campaign to obtain \$5,000,000 from the city's 290,000 factory employees was ushered in here today with the ringing of bells and blowing of whistles. More than 2,100 workers began a campaign to make every factory in Cleveland a 100 per cent plant.

Patriotic rallies have been scheduled in many plants during the campaign. Every employee will be urged to purchase at least \$1 worth of stamps weekly for the duration of the war.

Camphor Plantation.

The first and only hearing camphor plantation of any size in this country is located at Satsuma, Fla., says Popular Science Monthly. It contains over 2,000 acres of camphor trees which last year yielded over 10,000 pounds of crude camphor. This year it is expected the yield will be many times this amount. Florida has several other plantations, which will soon come into bearing.

That Might Help Some.

Maid (about to leave)—"Night I ask for a recommend, ma'am?" Mistress—"Tut, Mary, what could I truthfully say that would help you to get another place?" Maid—"Just say that I know many of your family secrets, ma'am."—Boston Transcript.

Concentrated Clews.

For persons interested in the study of finger prints can be highly recommended any of the best circulating novels in the public library.—Buffalo Express.

WANT EXPERTS FOR IMPORTANT WORK IN SIGNAL CORPS

The Chamber of Commerce has been asked by the government to help find about twenty production experts for important war work in civil service of the Signal Corps. The positions will be filled under the civil service rules and the salaries range from \$2,400 to \$3,600 a year. The duties consist of supervising, distributing and expediting the manufacture and delivery of material and equipment. It is desired to obtain persons with a general knowledge of production and manufacturing problems, experience in preparing and maintaining charts and data of progress and, preferably, a thorough knowledge of the manufacture of radio, telephone or telegraph equipment and its installation.

No written examination will be required. The positions will be filled under civil service rules on a non-competitive basis, but if there should be a surplus of applications from qualified persons those best qualified will be selected. A formal application will be required and selections will be based upon the information given therein with such corroborative evidence as may be needed. Full information and application blanks may be obtained by addressing the United States Civil Service Commission, Washington, D. C., or the Secretary of the Board of Civil Service Examiners at Boston, New York, Philadelphia, Atlanta, Cincinnati, Chicago, St. Paul, St. Louis, New Orleans, Seattle or San Francisco.

NEGRO KILLED BY SHERIFF AT NEW LEXINGTON

New Lexington, O., Aug. 12.—Serious race riots are threatened at Moxahala near here, where, following a series of shootings and crime in a negro colony, Sheriff Edward R. Hughes, of this county, yesterday shot and killed Patrick Ford, a negro, who was choking a woman, and who, it is said, threatened the sheriff. The sheriff's bullet pierced the negro's heart.

News of the shooting of Ford spread in the colony and a crowd gathered, menacing the sheriff, who summoned assistance from here. A deputy sheriff and armed citizens rushed to his rescue, and it was necessary to use guns to hold the negroes at bay. Excitement is still running high among the negroes.

In a quarrel over a game George Clark was shot and killed by Fred Douglass. Douglass fled, but was captured last night at Athens and will be brought back today.

Jesse Tenson, also colored, is dying from cuts inflicted in a row with Oliver Mervill, an ambitious cutting and shooting has been going on among the negroes, who are employed on repairs to the Moxahala tunnel. There are about 80 negroes in the colony. Eight negroes of both sexes are in jail here for crimes committed in and about the camp.

A coroner's jury which held an inquest over Ford's body exonerated the sheriff, holding he shot Ford in self-defense.

HANOVER GIRL ENROLLS IN THE NURSE RESERVES

Miss Lelia Mears daughter of Mr. and Mrs. S. A. Mears of Hanover is the sixth Licking county girl to enroll in the United States Student Nurse Reserve. Miss Mears is a graduate of the Hanover high school and a member of the Hanover Grange, her ability as a speaker is recognized as she holds the position of lecturer in that body. Her father is on the Executive Committee of the County War Chest.

The great need of this enrollment must be brought home to the people of every community—small town and rural district, that they share this responsibility of the nation's second line of defense. As it was impossible on account of unavoidable delay to begin this campaign in Licking county on the opening date July 29th the chairman has asked for leave to extend the time through Thursday, August 15th and has received a telegram from headquarters complying with this request.

CLAIM SUB COMMANDER WAS FORMERLY IN THE U. S. FISHERIES SERVICE

(Associated Press Telegram)
Gloucester, Mass., Aug. 12.—Fishermen claim to have identified the commander of a German submarine which has been sinking fishing boats off the Atlantic coast as a skilled navigator formerly in the United States fisheries service. Two men from different schooners that were sunk claim to have recognized a former acquaintance who had changed little except that he had grown a beard since they last saw him.

FELLOW DEMOCRATS

My "Case" is now in the hands of the Jury. You are the jurors, and I am not afraid to trust you, as I know your verdict will be correct. Respectfully,

W. A. FLEMING

8-12-18

Even among talkative barbers it isn't absolutely necessary to indulge in cutting remarks.

"LIGE" BRYAN FOR SHERIFF

Democratic Candidate for Sheriff

The voters of Licking county are fortunate in securing a candidate for sheriff, Lijah (Lige) A. Bryan.

He was born 36 years ago on a farm east of Newark, where he was reared and where he received his common and high school education, which afterwards was supplemented by a business course in Merideth Business College of Zanesville, O.

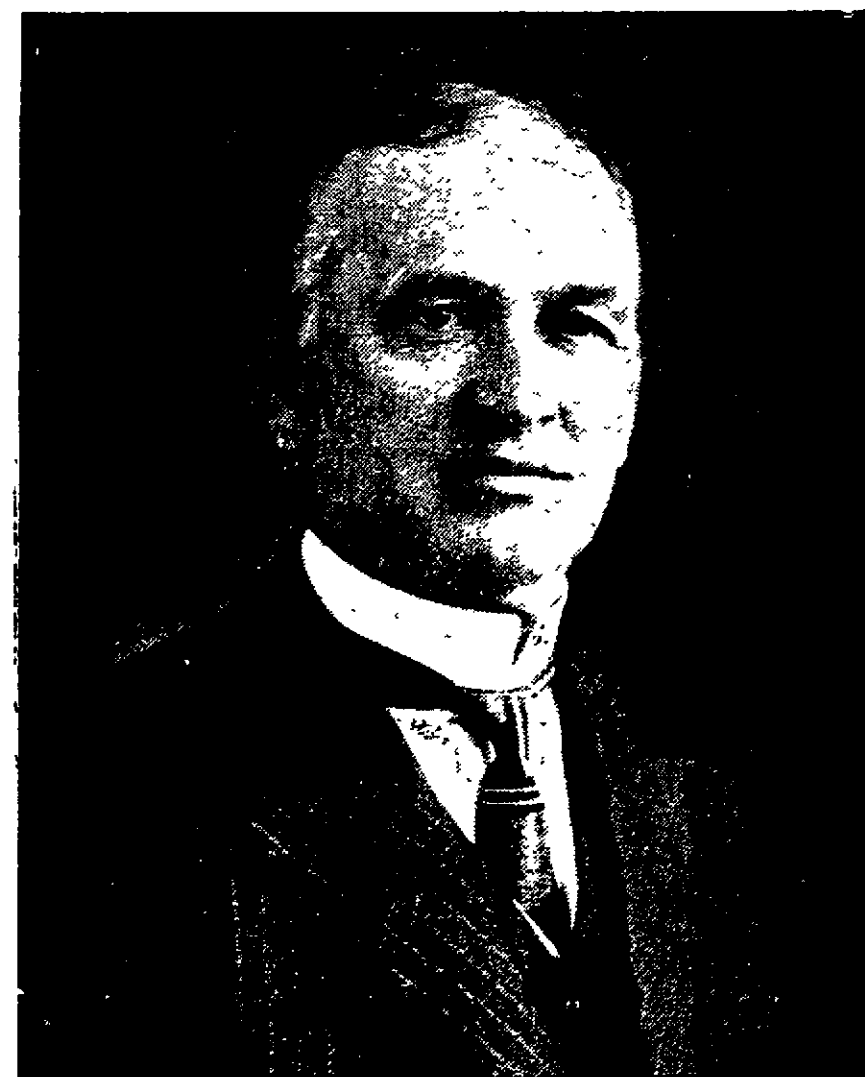

Mr. Bryan is married; has two children, and resides at 33 Union street, Newark, O., and for the past twelve years has been employed by the Ohio Electric Railway company, and during that time has rendered valuable service to the company and has made hundreds of friends.

A county officer should be a man who knows how to deal with the public, one who is courteous and accommodating, yet is not afraid to do his duty.

Mr. Bryan, in the discharge of his duties with the Ohio Electric Railway company for the past twelve years, has been constantly in touch with the public and his experience and courteous treatment of the people in itself qualifies and recommends him for the office he seeks.

His many friends recognize him as being the man for the place, and will be pleased to have the opportunity of supporting him at the nomination on August 13, 1918, and predict his nomination and election to the office of sheriff of Licking county.

William A. Ashbrook

DEMOCRATIC CANDIDATE FOR CONGRESS

If my record meets your approval

SOLDIERS' LETTERS

The following letter has been re-
ceived by Mrs. Mary Hutchinson from
her son, Private Fred B. Hutchinson,
who is overseas:

"July 6, 1918.
Mrs. Mary Hutchinson, Newark, O.:
Dear Mother and All—Will write
you a few lines to let you know I
am well at this writing. Hope when
this comes to hand it will find you
all the same. I received your letter
you sent the 8th of June. I got it
the 4th of July. How is dad? Did
he get well of his accident? I would
like to see you all. No; I did not get
my picture taken before I left Camp
Merritt, but I will try and get it
taken here somewhere, and then I
will send you one. I also got two
letters from Nellie and one from
Goldie. Have you talked to Nel-
lately? Tell her not to worry for I
am coming back to her some day.
Gee, I miss her so much. How are
the children? Tell them all I said
'hello!' I have to write a letter to
Rachel yet tonight. Excuse me, for
not writing sooner as I haven't had
any time to write or an opportunity.
Say, I will send the money you was
speaking about in a few days if I can
send it in a letter. I suppose you
have lots of garden out. Say, tell
Goldie to send me her picture. But
don't send me any packages as I
don't know whether I can receive
them or not. I am somewhere in
France. Gee, it is a beautiful coun-
try. I have been in England and
Canada. Don't know where I will
be next. But, anyhow, I will be
thinking of you all. I am feeling
better than I ever felt since I came
into camp. So don't worry, for I
will take good care of myself. Well,
as time is limited, I must close with
love and best wishes to one and all.
Bye bye. I remain your loving son,
Private Fred B. Hutchinson,
Co. D, 331st Infantry, American
Expeditionary Force, A. P. O. No.
762."

Appreciates the Medal.
Editor of the Advocate: I received
the medal you sent me, for which I
express my thanks, and sure will be
proud to wear it. I again thank you.
Yours truly, William M. Meeker,
3rd Company, 1st Train B, 158 De-
pot Brigade, Camp Sherman, O.

From the Trenches.
Mr. and A. H. Rickert have re-
ceived a letter from their son Har-
old Rickert, who is with the Second
Regiment of Engineers, Regulars
which has distinguished itself on the
Western front. He has been in the
trenches and has been ill with
trench fever.

He wrote from a hospital, and
tells of being made a sergeant, first
class. The Second Engineers were
with Gen. Pershing in Mexico and
were in El Paso, Tex., for several
months going across Sept. 5, 1917.
They were trained, seasoned troops
and have been in active service for
nearly a year. Sergt. Rickert was
company clerk and has been pro-
moted several times.

The letter from him follows:
My Dear Mother: Mother this is
the first chance I have had to write
to you since the last of May. I
went up on the line June 1st and
the line did not get me but the trench
fever did. I have been in the hos-
pital since June 24. Mother I sure
did have some fever, never went
down for nine days. If it had not
been for the fine way Uncle Sam
takes care of you I sure would not
be here.

Mother Uncle Sam has fine hospi-
tals and hospitals over here. I
know you must worry when you
can't hear from me as I worry when
I can't write. But you must not do
it mother because I know and have
faith in your prayer, so don't worry
as I am coming thru. I may have to
be transferred to another branch of
the service as I have a busted arch
but time will tell.

I am now a Sergeant, first class.
What do you think of that? There
is only one rank higher than an en-
listed man can get, in the highest
branch of the service too, and that
is Master Engineer, that Grade is
given you by Congress.

I am in Base Hospital No. 15 but
address your letter the same.

Safety First.
A grocer who was troubled with the
toothache determined to have the of-
fender extracted; but there being no
dentist near, he resolved to do the job
himself; whereupon he filled the ex-
cavation with powder, but being afraid
to touch it off, he put a slow match to
it, lighted it, and then ran around
the corner to get out of the way.—
Exchange.

WEIGHTY PRAISE

D. H. Shambarger Tells Druggist
How Nerv-Worth Made Him
Over.

A standing Nerv-Worth Claim is
that this preparation does good and
good only. Composed of vegetable
ingredients, it confers rich benefits
upon the system and leaves not a
trace of harm behind. It is truly a
family tonic, blessing equally the
nervous, excitable child, the worn
out veteran and men and women of
all ages.

The following statement by D. H.
Shambarger of Cottage Grove, San-
dusky Soldiers Home, made a short
time ago to W. H. Graham, San-
dusky's Nerv-Worth druggist illus-
trates the truth of the veteran part
of the foregoing claim. "I have
taken one bottle of Nerv-Worth and
received great relief. Digestion
much better and sleep has been re-
stored to me. Am a veteran of 88

the T. J. Evans Drug Store, Newark,
is Nerv-Worth does not do for you
what it did for Mr. Shambarger.

Aug. 12-14

CAMP SHERMAN NOTES

(Associated Press Telegram)
Camp Sherman, Chillicothe, Aug. 12.—
The big trays of hot smoking liver
smothered in onions, which have helped
the Camp Sherman soldiers bear the
heat with a little better spirit—after
meal times—than usual in recent days,
are to be no more. Major General Hale,
commandant, ordered yesterday that
liver, beef heart and other inward deli-
cacies of the gentle cow be eliminated
from the canteen diet. The reason was
a report of the medical officer in
charge of the sanitary train, who re-
ported cases of illness following the
serving of these meats in company
messes.

Every part of a soldier's uniform
must be turned in at least in six
months after it is issued, Major Gen-
eral Hale directed in another order, to
the reclamation officer, for renewal or
repair. At weekly inspections. There-
after, any articles found in need of be-
ing replaced or patched will be turned
in at once. The reclamation division
of the camp has already repatched
60,000 pairs of shoes since its insti-
tution and has been concerned with
the conservation of almost every article
used in quantities about the canton-
ment.

Worthy of Imitation.
The plodder is not dependent on pull
and other tricks. His conduct is so
ordinary that folks are not attracted
to him until they learn to know his
reliability. His very nature makes him
self-dependent and he asks favors of
no one. He knows that to "make good"
he must produce. To do that, every
step must be known and every prob-
lem fully met. So he counts on his
own ability to carry him over every
advanced line. Nothing is too hard or
too lowly. All he asks is health and a
chance. These are the vehicles that
carry him to success. So he rises and
knows the "why" of every step. He is
only one of a great mass of humans
that could be what he is. He is a chal-
lenge to every youth and without his
methods is no lasting success.

Vote for Joe Renz, for
County Recorder. 8-12-18

RECLAMATION OF WOUNDED U. S. SOLDIERS IS UNDER WAY

Reclamation of American wound-
ed and crippled soldiers is well
under way in a number of fully
equipped hospitals in the United
States. The primary object of
these hospitals, besides restoring
the patients to health, is to take

their minds off their injuries, re-
store their nerves, shattered in
the war, and create a new interest
in life for many of them. The
photos above were taken at the
Walter Reed hospital near Wash-
ington. The upper one shows a

group knitting and weaving rugs
and basking on the porch. The
lower picture shows a group of
bedridden boys learning to knit.
The smaller inset is of one soldier
who lost his right arm and has
learned to do beautiful carving
with his left hand.

AMUSEMENTS

ADDITIONAL
"Eve's Daughter."

Sunday amusement seekers in large
numbers saw Billie Burke yesterday in
a role which gave her a new lease on
the stage a number of years ago called
"Eve's Daughter" by Alice Ramsey. A
large cast supported Miss Burke which
includes such players as Thomas Mc-
Gowan, William Riley Hatch and others.
The film was directed by James Kirk-
wood, who has directed some of the
greatest of Mary Pickford's successes,
besides occasionally serving as Mary's
leading man.

Miss Burke plays Irene Simpson
Bates, who chafes at the restraint of
her strict father and at his death
breaks all restraint. Taking the \$15-

600 which he has won, she starts
to have one grand time before settling
down. Her father's friends flock to
her and help her spend the money.
With one of those consciousness runs,
she plans to elope with her father's
young lawyer, long her devoted suitor, learns
of her plans and with the aid of a so-
ciety hanger-on, manages to rescue
Irene just in time. The charm of the
play lies in the rapid plot, also in the
playing of the stern parent by Mr.
Hatch in the semi-quarrels of Miss
Burke and Mr. McGowan and in the in-
jection of numerous "Burkisms" or
characteristics peculiar to the star.

Today the Hearst-Pathe News, No. 64
of fall of latest world events, is an added
feature. "Eve's Daughter" remains over
Tuesday.

"The Tiger Man."
The Auditorium brings back for
Thursday, for the day of Mr. William
Hart, who is seen in a really typical
Hart play, "The Tiger Man." This
photoplay by J. C. Hawks is dramatic
from start to finish, for Hawks was
a stage man who understands dra-
matic values from the ground up and
has directed in the past, precisely
what fits. You liked this one when
shown here before and you'll like it
again. Thursday, the sagebrush, cat-
tles, Hart's sombrero, rope, cartridge
belt and his swing guns, are all things
to remember of Hart and you see them
in this wonderful air.

"My Four Years in Germany."
Few men in America or elsewhere
have enjoyed greater opportunities to
study the Prussian system and
the Prussian point of view than
has Hon. James W. Gerard, former
United States ambassador to the
imperial German government. He was
in Germany when the war began and
with the exception of a brief visit to
America, when he warned the Presi-
dent that Germany was as ruthless as
it seemed, he was in Berlin on jour-
neying about the empire. Ambassador
Gerard was repeatedly received by the
emperor. He had the entrée to the
German capital's high society. He dealt
daily with the man who controlled the
policies and the thought of the Ger-
man people.

When the war began he came home,
and wrote a book, "My Four Years in
Germany," has already enjoyed an as-
tonishing circulation and its effect
upon the temper of the American peo-
ple has been of major importance.

It has gone far toward persuading
those whose faith in human nature
was to complete that America makes
war upon the German people as well
upon the German government. The
government has requested us to show
this feature again in Newark and
attractions it was not seen by as many
as usually is the case in a feature of
this sort. The government tells the
public that it is the greatest propa-
ganda feature so far made for it says

ALHAMBRA.
Tonight and Tomorrow.
Ludwig Hertzler is the manager of
the Alhambra. He is a man of brutal character who

ill-treats his native workers. He has a
native woman housekeeper and a
half-breed daughter. Associated with
him in the exploitation of the Yaqui
Indians and the Mestizo population is
Senora Morales, a slave dealer.

David Mann, son of a wealthy view-
er of Northfield, Maine, who has invested
in an adjoining plantation to that con-
trolled by Hertzler, is sent by unscrup-
ulous promoters to manage the estate
in order that they may the better con-
trol his mother's fortune.

Young Mann is horrified by the brutal-
ity of Hertzler with whom he falls
in love. A feud grows between them
while his intensified by Hertzler's ef-
fort to seduce Mann's sweetheart,
daughter of the woman slave dealer,
who is a convent girl.

Mann is confronted with immen-
sely plots for his undoing, launched by
Hertzler, but after establishing a rule
of humanity on his own plantation, he
returns to Maine, exposes the crooked
promoters, returns to his native Maine
and marries Constance.

Hertzler is killed by his
own slaves who turn upon him and set
fire to the stockade village in which he
has contained them.

GRAND.
Tonight and Tomorrow.
In "Troublemakers" a comedy drama,
Jane and Katherine Lee, Wm. Fox's
"Baby Grand" film stars, unleash more
fun and cause more trouble than seems
possible. There is a virile plot as a
foundation for "Troublemakers" and a
tendently interesting story is unfolded
as the picture progresses. But the Lee
kiddies are in the foreground all the
time and wherever they figure in the
film there's a fun or trouble usually
both. There are occasions, however,
when Katherine is called upon to dis-
play her splendid dramatic ability in
scenes requiring portrayal of deep
emotions. This is especially so in
a scene where she greets a young
man whom she and her sister saved
from electrocution as he is being
murdered by her father. She is com-
mitted, but of which he was innocent.
In this scene, little Katherine rises to
the grand dramatic heights and her per-
formance would do credit to any of the
great stars on the speaking stage or
screen. So in "Troublemakers," is
seen at her best. "Troublemakers" is
a Fox Standard Picture.

Some people put a penny in the
collection plate under the impression
that they are buying a mansion in
the sky on the installment plan.

ulous promoters to manage the estate
in order that they may the better con-
trol his mother's fortune.

Young Mann is horrified by the brutal-
ity of Hertzler with whom he falls
in love. A feud grows between them
while his intensified by Hertzler's ef-
fort to seduce Mann's sweetheart,
daughter of the woman slave dealer,
who is a convent girl.

Mann is confronted with immen-
sely plots for his undoing, launched by
Hertzler, but after establishing a rule
of humanity on his own plantation, he
returns to Maine, exposes the crooked
promoters, returns to his native Maine
and marries Constance.

Hertzler is killed by his
own slaves who turn upon him and set
fire to the stockade village in which he
has contained them.

Entered as second class matter March 10, 1882, at the postoffice at Newark, N. J. Under Act of March 4, 1879.

Member of the Associated Press.
This Association Press is exclusively entitled to the use for republication of all news dispatches credited to it or not otherwise credited in this paper and also the local news published here.

GUARANTEED CIRCULATION.
The circulation of The Newark Advocate has been audited by the Audit Bureau of Circulations, the recognized authority on expert circulation examination.

ANTI "YELLOW DOGS."

Secretary of State Fulton has officially recognized the importance of the drive on the "Yellow Dogs" being conducted under the auspices of the Anti-Yellow Dog Clubs throughout the state and in a letter address to the National headquarters of the club in New York City, endorses the campaign and pledges his support to the movement that is opening the eyes of careless Americans to the treachery of Hun propagandists and the danger of repeating the lying stories they put into circulation.

The "Yellow Dog" campaign is the outgrowth of the idea suggested by Henry Irving Dodge in his most recent work of fiction. It is solving the problem of dealing with the enemy propaganda question by enlisting the services of the American boys in companies of Boy Detectives who challenge every unpatriotic statement they hear.

Many of the biggest motion picture theatres in the state are running a slide calling upon the boys of ten years and older to enlist in the campaign and asking men and women to volunteer to act as leaders of the boys and direct their efforts.

THE SUGAR SITUATION.

America, which made exports of 140,000,000 bushels of wheat in the closing crop year, where less than 20,000,000 bushels surplus appeared, is called upon to exercise virtue with sugar.

The burden of maintaining allied supplies falls on your resources. No sugar comes from Central Europe, none from Java; Hawaii and West Indies less than usual.

French sugar territory is overrun by German armies; French sugar mills are taken and destroyed.

Submarine sinkings and losses by battle have cost us great stores; labor shortage makes inroads on production.

For England the allowance is two pounds of sugar a month; for France, one pound; for Italy, one pound. America seeks to share equally with all who sit at the common table, joined in the common defense.

There is shortage of sugar but there will be no famine. Manufacturers and the trade are under rigid restrictions. Conservation of sugar in the household is on honor. Supplies permit an allowance for the household of two pounds monthly per person. We can not in honor compel Europe to do with less while we take more ourselves.

It will generally be admitted that the man who can get \$5,000 a year for his ability to throw a ball from center field to home plate, has demonstrated an ability to land hand grenades in Hun trenches that can't be overlooked.

The German people aren't yet worried about the arrival of the Americans, as Kaiser Bill still assures them that they have come over merely to give exhibitions of baseball.

Just about what legislative favors do the striking war workers expect to get, when the soldiers get home and can vote again.

The shortage of the cotton crop will be a hard blow to the people who are accustomed to buy all wool clothes.

The Optimist—"There is a great satisfaction in helping a man to get on his feet." The Pessimist—"Yes; it gives him an opportunity to turn around and kick you."

TWO INDEPENDENCE DAYS.

The Republic of Ecuador celebrates two national holidays, and strange to say, both are "Independence Days." The small boy in the United States, if he knew of it, would no doubt envy his little Ecuadorian brother the possession of this double supply of Fourth of July, for both of these holiday occasions are celebrated in that country with the same enthusiasm and patriotic fervor that is displayed here on the anniversary of the adoption of the Thomas Jefferson's immortal Declaration.

The way this double-barreled independence came about in Ecuador is briefly as follows: The liberty-loving patriots had to shoot two bolts of Spanish domination before they succeeded in gaining their permanent independence. The first time, they had a quiet but determined revolution in Quito, the present capital of the Republic, the patriots assembling at the house of Manuela Canizares, a brave and beautiful woman, on August 9, 1809, when they prepared their declaration of independence and chose the officials who were to compose the provisional government. That night the conspirators gathered their forces in different parts of the city, and a Captain Salinas, who commanded the companies of regular troops that guarded the city, went to their barracks, read to them the declaration, and won them over to the cause of the patriots. They overpowered the bodyguard of Ruiz de Castilla, the Spanish governor, early on the morning of August 10, and thus established the first republic without shedding a drop of blood. It lasted only about a year, when Castilla succeeded in overthrowing the patriotic government and again brought the country under Spanish domination.

The fires of liberty had been kindled, however, and the Ecuadorians kept up their heroic struggle notwithstanding many reverses until 1820 the people of Guayaquil, the leading seaport of the country, succeeded in rebelling on the 9th day of October. With the aid of General Simon Bolivar, the great Venezuelan emancipator, and of his compatriot, General Antonio Jose Sucre, the Ecuadorians after many bloody battles succeeded in completely annihilating the Spanish forces and established freedom in Ecuador forever. Therefore it is that the Ecuadorians celebrate two "Independence Days" the 10th of August and the 9th of October.

STABILIZING INDUSTRY.

In a recent labor trouble that has figured largely in the newspapers, the employees claimed that they were entitled to a large wage on account of the irregularity of their work. One worker who was demanding \$25.00 a week said that would only give him \$18.00 a week throughout the year, since he had to loaf such a large proportion of the time.

The result of such a condition is to add to the cost of living for all of us. If wages must be raised 40 per cent because our industrial system requires men to loaf large portions of the time, we all have to pay to keep these men in idleness. If conditions could be established, so that the workers could be kept busy all the time, many demands for increase of wages would never be made.

This irregularity of industry is the result of popular habits of buying goods. In many lines, there are regular spring and fall trades, and when the orders for half a year are made up, there is little to do but wait until the next six months run comes along.

People wake up in the fall all at once to the fact that they are going to need winter supplies. They rush to the stores all at once to buy those supplies. When this rush has been taken care of, the demand falls off, and the stores cannot give orders to keep the factories busy until they get ready to buy for spring delivery.

One of the greatest means for stabilizing trade is newspaper advertising. It encourages people to look ahead, foresee their needs, buy in off seasons in order to make economies. Thus it tends to keep orders flowing regularly to the mills and to produce those regular conditions of operation that are essential to economical production.

Rich Fishing Ground.

What are termed the reef waters along the north and northeast of Honduras form one of the rich fishing grounds of the world. The region begins about 100 miles east of Ceiba and extends around some distance south of Cape Gracias a Dios. This is all more or less shallow water, forming one great coral reef with a number of small keys extending up above the surface of the water and forming small islands. It is thus an ideal fish and turtle ground.

"A little learning is a dangerous thing," quoted the Wise Guy. "And a man is never too old to learn," came back the Simple Mug.

A GREAT WAR GOVERNOR.

(Cincinnati Enquirer.)
William D. Fulton, Secretary of State, who came to Cincinnati with several state officials to attend the outing, was introduced as a member of the War Cabinet of Governor James M. Cox. Mr. Fulton emphasized the fact that there is no issue in the campaign this year but the winning of the war and he urged the utmost compliance with the demands of the Administration at Washington which he commended highly for what had already been accomplished.

In commenting on the state administration, Secretary Fulton said: "Governor James M. Cox stands like a stone wall to his patriots. Cox is one of the greatest war Governors Ohio has ever had. His record stands out boldly, fearlessly and speaks for itself. No apologists are needed."

"When one hears of Governor Cox one instantly associates with him the best that Ohio has done in patriotic endeavor. And can more be asked of any man that that he is a true patriot?"

Secretary Fulton's utterances, particularly those referring to Governor Cox, were greeted with thunderous applause.

ON CHANGING ONE'S MIND.

(Philadelphia Record.)
Senator Chamberlain, chairman of the Senate Committee on Military Affairs, is reported by the Washington correspondents as being anxious to quiz Secretary of War Baker on his reasons for changing his mind on the extension of the draft ages. "It is the desire of the committee," he is quoted as saying, "to find out why this sudden change of front."

We have no particular interest in Secretary Baker's views on the proper ages for draftees, or in his reasons for changing them, if he has done so, but it may not be out of place to remark that these are days when every person of brains feels at liberty to change his mind in accordance with shifting events. A good many things have happened since so recent a date as July 15, for instance, that have led many millions of persons, including the whole German nation, we hope, to take a new point of view on many important subjects. Possibly Secretary Baker, a high-minded gentleman of broad vision, has been led to change his previous opinion on draft ages by the striking events in France. If this is the case, he has only exercised the privilege of all his fellow-citizens.

Even Senators change their minds with great abruptness. There, for example, is Senator Chamberlain, who only last February thought, or at least declared, that the War Department had "almost ceased to function." Presumably he thinks differently now. Then there is Senator Hitchcock, who when Secretary Baker modestly expressed his belief that there would be a million American troops in France by January, 1919, denounced this as a "preposterous exaggeration," and was real angry. Perhaps he has changed his mind now that he knows that there are already nearly 1,400,000 boys in khaki over there, with almost five months of the year still remaining for the transportation of a million more. Old Senator Lodge also babbled of a "wasted year" because he was not consulted as a great oracle on the management of the war. He may have changed his mind, but it is doubtful as his mental processes are those of the New England Federalists, who were very averse to new ideas. We wonder whether Senator Warren is still lamenting his delayed Rhode Island sausage these blazing days, so unsuitable for that table delicacy, and whether Senator Sherman still pines for his Illinois apples. Probably; for these are antediluvians who place their personal comfort and convenience above the Government's needs. It is really immaterial whether they change their minds or not.

Let us all keep an open mind, and change it as circumstances demand. If consistency is, as has been said, the bugbear of small minds, we will show our breadth of view by changing our minds as of the military situation on the western front.

"There is safety in numbers," quoted the Wise Guy. "Unless too many cooks spoil the broth," added the Simple Mug.

TEACHING SPIRITUALLY.

(Ohio State Journal.)
The question often comes to us how spirituality may be taught in school. The trouble is that people who are after such information imagine that spirituality is a didactic branch of study, like history and geography; that it is a compendium of questions and answers leading to definite knowledge. But it is not these. Spirituality does not imply a textbook. It is no part of psychology or moral philosophy. It is rather an influence than a system of instruction. If it has any textbook at all personality is that textbook.

This, of course, means the teacher—what he is and who he is and the meaning of his life constitute a course in spirituality. It is the example of the teacher, his attitude, his conduct, his aims, his aspirations, and his views of life. The main point is how he impresses the pupil. Does he awaken in the pupil nobler desires, a truer purpose, and an ambition to be something and to do something worthy? If he is not that kind of an influence he does not teach spirituality. The highest test to which a teacher can be subjected is, do his intuitive and spiritual qualities develop these traits among his pupils? If they do not, he is a poor teacher.

It is high time we were getting rid of the old arithmetical and grammatical tests. This does not mean that the textbook is to be set aside. It constitutes the tools with which the spirit works. The textbooks furnish the auger, the chisel, the hammer, the saw, which are to be used in building the edifice which the spirit purposes, and the beauty, elegance, harmony and form depend upon the possession of these traits in the soul of the builder. There are methods for developing these traits which will be referred to at a future time.

AMERICAN EFFORT TELLING.

(New York Post.)
Americans today are spared the disagreeable and unaccustomed duty of bragging. Other nations are doing it for them. Several months ago, Lloyd George said, as respects the military situation on the western front, that it came down to a race between Hindenburg and Wilson. Well, the universal testimony is that Wilson has now won. Both French and British military authorities agree that the arrival of more than a million American soldiers in France has redressed the balance of numbers and assured to Gen. Foch ample reserves. To this the enemy bears reluctant witness. For long the officially inspired German account was (1) that American troops would not be sent to France; (2) that if they did set sail they would be sunk on the way by German U-boats; (3) that if any American soldiers did succeed in getting through they would be of such inferior material so poorly trained, that they would amount to nothing in a military sense. Those illusions, or pretences, are now all dispelled. Even before the recent fierce fighting in which the best German troops, intelligence officers of the German army, were not to be despised. Since then the test of actual battle has spoken for itself. And on the larger aspects of America's share in the war, more than one German newspaper has confessed that, if numbers are to win the war, the United States is contributing to the allies the necessary margin of manpower.

It is not at all a case for boasting by the Yankee nation. We must keep our sense of proportion right. Some of the military correspondents in France of our newspapers gave the impression, unwittingly, that the recent great victory was won mainly by the American army, the French as it were merely going along with it. This is not, of course, the view of our general staff or of the Washington administration, nor as is it the view of our people. They know very well what is happening. The long war has given them the true perspective. They understand that the American military role has so far been supplementary and subordinate in the fighting; that we are to pledge our manpower and bring it to bear as it may be needed. This is the chief reason for the extension of our draft ages, and its quiet acceptance by the country.

25 Years Ago

Mr. and Mrs. Dennis Hall returned last night from a weeks visit to Chicago and the White City.

The many friends of Mrs. John Hoagland will be pained to learn of her serious illness at the home of her parents Mr. and Mrs. John Bierly of North Fourth street.

Miss Wilma Fulton has returned home after spending three weeks visiting in Pittsburgh, Pa.

Miss Emma Maybald of Syracuse, N. Y., is visiting the family of George Graff on North Fourth street.

Frank Powell, engineer and Herbert S. Conley telegrapher, left today for Chicago and the World's Fair.

15 YEARS AGO.

Miss Charlotte Neal will entertain on Tuesday afternoon with a porch party.

Mrs. Ida T. Lawlor of North Park Place left today for Steubenville where she will join a party, who will go to Atlantic City for a few weeks stay.

William Bolton of the Hotel Bolton, W. E. Foley the well known B. & O. telegrapher and William J. Fitzgibbon of the Everett glass works are spending the week at Magnic Springs.

T. R. Moore and daughter Miss Anna left this morning for Muskingum county where they will visit for a week.

"There is safety in numbers," quoted the Wise Guy. "Unless too many cooks spoil the broth," added the Simple Mug.

ANNOUNCEMENTS

DEMOCRATIC TICKET.

For Congress.
GEORGE DANIEL NEAL.
WILLIAM A. ASHBROOK
State Senator.

J. HENRY MILLER (second term)
Auditor.
FRED S. WILSON, (2d term)
Sheriff.

B. J. SMITH.
ELIJAH A. (Lige) BRYANT.
Treasurer.

B. V. WEAKLEY.
Recorder.
THEODORE KEMP, JR.
WALTER S. AYRES
WM. A. FLEMING (2d term.)
JOSEPH RENZ.

County Surveyor.
CLYDE W. IRWIN (1st term)
JOHN C. SWARTZ.

Representative.
JAMES J. HILL (2d term)
For Coroner.
DR. S. S. RICHARDS.

Clerk of Courts.
LEO T. DAVIS (Second Term)
Commissioner.
J. E. McCracken (Second term)
J. C. BUTT (Second term)
C. D. LAKE (Second term)

REPUBLICAN TICKET.
County Auditor.
EARL T. CSBORN.

Representative.
J. S. GRAHAM (Second term)
Recorder.
LESTER S. NEWKIRK.

Sheriff.
E. CONE LEGGIE.
CHARLES P. O'NEILL.
County Treasurer.

JUDICIAL TICKET.
Common Pleas Judge.
THOMAS R. FULTON (2d term)
CHARLES N. MOORE.

THE WONDERS OF NATURE VS. WAR'S INFERNO

THE ADVOCATE'S TELLING POT

But look for ruin when a coward wins.
For fear and cruelty are ever twins.
—Aloyn.

Father Needsn't Worry.
"I am safe, Father William," the Crown prince cried.
"To casualties I'm a stranger;
My soldiers by hundreds of thousands have died.
But I kept away from all danger."
—Baltimore Sun.

Retreating.
A brave old man is Oswald Peets.
In battle he could not be beat;
The only time that he retreats,
Is when it is his turn to treat.
—Luke McLuke.

Of Oswald's heroism we
Are surely very glad to know;
We've always understood that he
Has a retreating forehead, though.
—Luke McLuke.

Bless Them!
A real nice man
Is Robert Rye;
He never calls
A man a "guy."
—Luke McLuke.

A splendid man
Is Jimmie Knopp;
He never calls
A friend "Old Top."
—Wilmington Journal-Republican.

A noble man
Is Harry Mink;
He never calls
A guy a "kink."
—Cleveland Plain Dealer.

A fine old top's
That Guy De Vere;
He never calls
A sink "Old Dear."
—Cleveland Plain Dealer.

A gentleman
Is Henry Huff;
Because he never
Calls my bluff.
—Newark Advocate.

I like that guy
They call A. Rubie
He never says
"You are a boob."
—Advocate Reader.

Results That Count.
A religion that does not result in kindness toward others and honesty in one's dealings is only an emotional amusement.

Poor Substitute.
The mint patch glows in the summer sun, the world is a happy spot; there's mint enough, as your eyes may trace, to cover an acre lot; but the other things having gone so high.

A Surprise in Store for the Colonel.
Our pastor is off on his much-needed six weeks' vacation, Col. Wilson is sequestered in charming but admittedly windswept Cleveland Heights, we never can find our kind employer when we want him and virtually all the cussing now devolves upon us personally.—Ohio State Journal.

We look for the subscription list

Boy-Ed, former German attache in the United States, has written a book about America and the submarine, which is believed to be fully as crazy as his name sounds.—Kansas City Times.

News item: Japan agrees to intervene in Siberia. Only a close perusal of the newspapers of the past three months will reveal how great a triumph this is for Washington.—Detroit Free Press.

Did You Know
That a davit is a piece of timber projecting over the bow or front part of a ship, and used as a crane for hoisting the anchor clear of her bow? Two such pieces of timber or iron on her side, or stern, are used for hoisting and lowering the boats.

Pointed Observations
It develops that the name of Germany's ambassador to Ukraine is von Mumm, and probably he is keeping that way with bomb-throwing Russians stalking all the kaiser's agents in those parts.—Kansas City Star.

Ferdinand of Bulgaria is going to tour foreign lands for the benefit of his health. But there are mighty few foreign lands left which would be at all healthy for him.—Cleveland Plain Dealer.

Lenine now says he owes the German kaiser \$3,000,000,000. Why not print a nice \$3,000,000,000 Soviet greenback and mail it to Berlin?—New York Tribune.

Personally we don't know how to pronounce Soissons, but we admire the way those who named it have taken it.—Dallas News.

The kaiser has retired in disgrace one of the generals at Soissons. Hundreds of thousands of other Huns have retired without waiting for official word from the All Highest.—Detroit Free Press.

WHEAT FIELDS OF THE WORLD

Why Allies of United States Look to North America for Bread.

U. S. Food Administration.

Dotted areas indicate the world's wheat fields, and the steamer routes show why, with the present shortage in ocean transport, it is not possible to transport wheat from India and Australia to Europe. India has an exportable surplus of 12,000,000 bushels and Australia 140,000,000 bushels. But the U-boats have made the Mediterranean inaccessible. It is 10,430 miles from India and 11,330 from Australia to Liverpool. Argentina, 6,265 miles has 145,000,000 bushels for export, and it now is hoped that shipping will be available to carry 100,000,000 bushels of it to Europe. The wheat fields of Rumania, to the east of the Black Sea, and of Ukraine, to the north of it, also are indicated, showing the tremendous food advantage Germany has reaped through forcing peace with Rumania and Rumania.

HOW MRS. BOYD AVOIDED AN OPERATION

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well."

"My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. I relieved me from my troubles."

so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for you."

—Mrs. MARIE BOYD, 1421 5th St., N. E., Canton, Ohio.

Sometimes there are serious conditions where a hospital operation is the only alternative, but on the other hand so many women have been cured by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, after doctors have said that an operation was necessary—every woman who wants to avoid an operation should give it a fair trial before submitting to such a trying ordeal.

If complications exist, write to Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice. The result of many years experience is at your service.

After Baby's Bath

10,000 nurses will tell you that nothing keeps the skin so free from sores as

Sykes Comfort Powder

Its extraordinary healing and soothing power is noticeable on first application. 25c at the Vinal and other drug stores. The Comfort Powder Co., Boston, Mass.

THE COURTS

Justice Horton's Court.

A warrant has been issued for the arrest of Charley Good, on the affidavits of O. E. Lampton and F. L. Norman. Both men bring the same charges against Good, that of shooting with intent to kill. The case will be heard soon.

Real Estate Transfers.

Edward W. Ellis, administrator of the estate of Viola C. Conley, to Pearl L. Jarrett, et al.; property in Penney addition, \$1334.

Adjudged Insane.

Ruhama Collins was adjudged insane by Probate Judge Hunter this morning, the examining physicians being Dr. Homer Davis and W. H. Knauss. She was taken over to Columbus at 12 10 this afternoon.

Marriage Licenses.

Deward Disbennett, Jerseytownship, farmer, and Miss Olive Penn, Alexandria. Rev. L. C. Sparks named to officiate.

Married by Justice.

John Almessor, of Warren, Ohio, and Mrs. Elizabeth Buksar, of this city were married by Justice Jones Saturday.

Appeal Case.

The case of A. V. Leak vs. the Bowles Live Stock Co. and Edward White has been brought to the court of common pleas on appeal from the docket of Justice D. M. Jones. Plaintiff says that there is due him \$321.80, that being the balance due on a car of stock which was shipped to the defendant.

Justice Jones' Court.

Abe Myers of Black Hand was arrested on affidavit of Sheriff Swank Saturday night, the charge against him being that he was drunk and disorderly. Residents of Black Hand called the sheriff who went down and brought Myers to the county jail. He pleaded guilty in court this morning and was given a suspended sentence and paid the costs of the case.

Cultivate Self-Confidence.

Dress and self-confidence go hand in hand. Self-confidence is the motive power that turns the wheels of success. Self-confidence is the knowledge that you can and will do whatever you happen to undertake. If you are deficient in self-confidence, you cannot expect to inspire in others.

Study Mathematics.

There is no branch of solid knowledge that is not based on mathematics. That is true of electricity in a very notable degree. It is true of physics, mechanics and all the arts of construction. And there is no man whose thinking is as true, unwavering, direct, clear and straight to the point as is that of the mathematician. To go cobwebs out of your brain study any branch of mathematics.

Nature of Fatigue.

Fatigue is the presence in the blood of poisonous by-products of life combustion. While we are awake the poisons accumulate faster than the system can remove them. When we are asleep, when the life combustion is slowed down, the system removes them faster than they accumulate. It is as though ashes accumulate in a stove at such a rate that the fire had to be put out every so often to allow a chance to remove them.

Aluminum in Transformers.

Aluminum has been suggested as a substitute for copper in transformer windings. Dealing with heat dissipation, temperature rise, comparative costs of the different materials and other important factors, it appears that the advantages are still with copper, however.—Scientific American.

SOCIAL EVENTS

Coss-Weakley.
Mr. Walter V. Coss, of Mansfield and Miss Pearl D. Weakley of Union Station, Ohio, were married in Mansfield, Ohio on Saturday, August 3, 1918. They will reside in Mt. Vernon, O.

Evans-Arbaugh.
Mr. Robert Beiden Arbaugh of Canton, O., announces the marriage of his daughter Miss Georgia Anne Arbaugh to Gilbert Ray Evans, on Saturday, August 3, 1918, at the Trinity Lutheran church at Newport News, Va.

The bride has resided in West Church this city and has been employed in the offices of the A. H. Helsey company. Mr. Evans, formerly conducted a grocery here and more recently has been traveling. He is now employed in the ship yards at Newport News.

Mr. and Mrs. Evans will be at home at 241 38th street, Newport News.

The Woolard reunion will be held on Thursday, August 15, at the Sanford Place on the Jackson-town road. All relatives and friends are invited to attend and bring their baskets.

Miss Frances Foot of Columbus was the honor guest at a dancing party given Saturday afternoon at the home of Miss Frances Carlisle on Granville street. The afternoon was delightfully spent and dinner was served the following.

Foot, Angela Kennedy, Grace Berger, Virginia Miller, Elizabeth East, Geneva Frye, Sara McConnell, Gwendolyn Davies, Janet Barrick, Florence Long, Creta Roet and Esther Reese.

Miss Flora Levitt will be hostess to the members of the Silent Circle of The King's Daughters and Sons at her home, 82 North Sixth street on Tuesday evening at 7 30 o'clock.

Disbennett-Penn.

On Saturday evening, Rev. L. C. Sparks united in marriage Miss Olive Penn of Alexandria and Mr. Deward Disbennett of Johnstown. Mr. and Mrs. Disbennett will reside in Johnstown.

Miss Mary Ruff entertained with a miscellaneous shower at her home in West Main street Friday evening, honoring Miss Marie Helman. The guests were Marie Heyman, Mary Ruff, Mary Pyle, Lenora Eries, Thora Slaughter, Dorothy Hufford, Margaret Martin, Beulah Murray, Irene Winters, Marie Beck, Esther Robinson, Pearl Vandenberg, Margaret Floyd and Katherine Pritchard.

Cloud of Witnesses.

While we watch the papers for word of what our troops are doing across the sea, we may be sure that there are other watchers as interested as we, though invisible, to our eyes. The heroes of the past have not lost interest in the heroes of the present. The cloud of witnesses, the heroes of all generations, are looking down on the boys in khaki who are fighting for the world's freedom.—Girl's Companion.

Who'd a Thought It?

Reform is the work of reason slowly awakening from the lethargy of ignorance, gradually acquiring confidence in her own strength, and ultimately triumphing over the domination of prejudice.

LATEST NEWLYWEDS OF THE WHITE HOUSE

Rev. Mr. and Mrs. Isaac Stuart McElroy Jr.

These photos of Rev. Isaac Stuart McElroy Jr. and his bride, formerly Miss Alice Wilson, were taken shortly after their marriage at the White House recently. Mrs. McElroy is the daughter of Joseph Wilson, the president's only brother. The McElroy wedding was the third in the White House during the Wilson administration. Eleanor and Jessie, the president's daughters, were married there. Mrs. McElroy also was the fifteenth bride of the White House. Rev. McElroy is pastor of the Presbyterian church at White Sulphur Springs, Va.

GENERAL'S KIN IS HOSPITAL WORKER

Mrs. Mary Logan Tucker.

Mrs. Mary Logan Tucker is president of the Legion of Loyal Women. This organization is interested in many kinds of practical war work and especially in providing rest pillows for the hospitals here at home.

Mrs. Logan is a daughter of the late General Logan.

Whale Eaten by Many.

The Indians of the Pacific coast before the white man came hunted the whale in their swift, high-proved narrow canoes, killing it with light harpoons. For many years whale meat was used largely by them. The Japanese for centuries have eaten whale beef. Among the nations of Europe it has been common food in the past.

Greenland Rich in Metals.

Greenland, that huge Danish territory, has copper, lead, silver, tin, Flakes of absolutely pure silver have been picked up in crevices along the cliffs. Masses of almost pure iron are found in Greenland. One which was brought to Europe was six and a half feet long by five and a half thick, and weighed 40,000 pounds.

Comes Too Late.

As one journeys through life and the shadows begin to fall eastward one reaches the solemn conclusion that too much of the world's wisdom is uttered and too little lived.—Chicago News.

How They Play.

The playful habits of sheep and goats are well known. The calf is an ungainly creature, but it will gambol over the pasture in a highly diverting manner. Birds hold dances regularly, at which the tango is not excluded, though most of the numbers are solo performances and would be billed as "eccentric dancing."

ABOUT PEOPLE

Mrs. B. F. Effinger and grandson have returned to their home in this city after a visit in Lima, O.

Miss Mildred Frier of the Boston store will spend her vacation in Zanesville with relatives and friends.

Congressman Addison Smith of Idaho, was in town yesterday the guest of his sister, Mrs. George L. Starrett.

Vincent J. Carr of Camp Merritt, N. J., has returned to camp after spending two days at his home in North Fourth street.

Miss Mary Anderson of North Fourth street is visiting Miss Lois Wood in Coshocton. They were formerly class mates at Denison University.

Misses Mildred Irwin, Lucille Callahan and Frances Oberfield were to Chillicothe where they remained over Sunday.

Miss Beatrice Schreffler has resumed her duties with the Home Building Association after a two weeks vacation spent with relatives and friends in Rochester O.

Dr. and Mrs. A. E. Best have returned from a motor trip through the east. They visited Gettysburg, Washington, Baltimore, Annapolis and other cities.

Harold Lucas, of the Engineer Corps, Camp Sherman, spent Sunday at home.

Archie Goodwin, of Headquarters Department, Camp Sherman, was home over Sunday.

Mr. and Mrs. M. O. Drumm, and son, Milton Orr, Jr., of Massillon, are visiting friends and relatives in this city.

Miss Edith Anderson of 656 Mt. Vernon road is spending the week with her cousin, Miss Mabel Richards near Outville.

Mr. and Mrs. John W. Parkinson, Mrs. John O. Robertson and Mrs. Burt McDaniels, motored to Camp Sherman Sunday, where they were the guests of Corporal Burt McDaniels.

OBITUARY

Mrs. Mary Poundstone.

Mrs. Mary Poundstone a former resident of this city passed away Saturday afternoon at the home of her daughter, Mrs. W. A. Whitmore in Akron, O., at the age of 87 years. Four daughters, Mrs. W. A. Whitmore, Miss Della Poundstone, of Akron, Ohio, Mrs. Dr. Hagerman of Cincinnati, and Mrs. John Gray of this city and two sons, A. S. Poundstone of Montgomery, Alabama, and Chas. Poundstone of Cincinnati, together with 13 grandchildren and 18 great grandchildren are left to mourn her loss. By her passing away Newark has lost another of her oldest and best known citizens.

The body will be brought to Newark this evening and will be taken to the residence of Mrs. John Gray 277 North Fourth street, where services will be held Tuesday afternoon at 2 o'clock.

Joseph C. Ervin.

Joseph Clark Ervin, son of the late Joseph and Esther Lavada Ervin, died Sunday morning at the home of his sister, Mrs. Permelia Thomas at 180 Mahoning street. He was aged 57 years. He has been a patient sufferer for a year. He leaves to mourn his loss three brothers and five sisters, a number of relatives and a legion of friends. Funeral services will be held at the Thomas home Tuesday morning at 10-30 o'clock and interment will be made in Cedar hill cemetery.

John Christian Miller.

John Christian Miller of 49 Prospect street, departed this life Monday morning at 2 o'clock. Further announcement of the funeral will be made in Tuesday's issue of the Advocate.

Daniel Moul.

Daniel Moul was born in 1855 and died at the home of his daughter, Mrs. C. B. Hammond, this morning at 10-30 o'clock. Death was due to a complication of diseases. He leaves to mourn their loss, his widow, one son, William and two daughters, Mrs. D. C. Willard and Mrs. C. B. Hammond, all of this city. The funeral services will be held at the home of Mrs. C. B. Hammond, 237 Wilson street at 10 o'clock Wednesday morning and interment will be made at Cedar hill cemetery.

Barnacles on Warships.

Warships have to be cleaned on the outside. On one ship alone 200 men worked all day scraping off 600 tons of animal and plant growth. This tremendous quantity of sea life had accumulated in less than two years, during which time the ship had traveled many thousands miles. The weight of the barnacles was so great that from 25 to 40 per cent more coal was consumed in maintaining the normal speed of the boat.

Keep Curb on Speech.

Most of us say a great deal more than we mean. We have a way of exaggerating things just for the sake of the picturesque. There is no reason why we should talk about our own affairs and less reason for talking about our neighbors. It is a mighty safe rule in business, as in life itself, to say only the pleasant things and keep the unpleasant things in the background—or better still, not to recognize them at all.

Alaska has been called the land of the "great unwarmed," and it is said that in some parts of the country water retails at \$1 a bucket. In still other sections clothes are washed in the rivers, and women have been seen "treading blankets" when the water was so cold as to turn their feet and ankles beet red.

Advertising--- Who Pays the Bill

COPYRIGHT 1918

By J. F. Matteson, President
Gundlach Advertising Company

NUMBER 5

A series of fifty-two articles written by experts on advertising for your benefit. They will appear in 'The Advocate'. Read them and learn how advertising helps you.

There is a feeling still on the part of some people that advertising causes a higher cost of merchandise to the customer. Such is not the case. In fact, just the opposite is true. Advertising enables manufacturers to produce their commodities in larger volume, thus reducing the price to the consumer. Positive proof that advertising DOES lower the price to the consumer may be found in a study of the price tendencies of the commodities produced by America's largest manufacturers who are also large advertisers.

You hear of the millions of dollars which are spent annually for advertising by the manufacturers of the country. Your conception is that this great expenditure is indirectly paid by the consumer. You cannot see the contractions at the other end of the manufacturing business for which advertising is responsible. As a matter of simple illustration, I believe the following will best make this clear.

You are a shoemaker. You must have \$4 every day to meet all of your needs—to purchase your food, your clothing, your coal, pay rent and take care of the other necessities. Four dollars, we will say, will exactly do it, but you have nothing left.

The shoes you make cost you four dollars a pair to produce. You are selling one pair of these shoes a day. You must have \$4 a day to live, which amount you add to the cost of making the shoes, bringing the selling price to \$8.

You decide to write some letters to a number of people every day telling them they can buy good shoes from you. You send out fifty letters a day at a cost of \$1.50. As a result of these letters which is your method of advertising, you sell two pairs of your shoes a day, or \$16 worth, with a profit of eight dollars, less your advertising cost (the letters) of \$1.50 leaving a net profit of \$2.50 after you take the \$4 you require each day. You then increase the number of your letters until you are spending \$10 a day for this kind of advertising. You are now able to sell eight pairs of shoes every day, which is all you can make in your shop.

Your operating cost is now \$14 a day on the sale of eight pairs of shoes, or \$1.75 a pair, which must be added to the material cost of the shoes of \$4, thus making each pair cost you \$5.75 to make and sell. You need some profit, however, for surplus, which you decide shall be \$1.25 on each pair. By selling eight pairs a day instead of one as you originally did, you are able to reduce the selling price to \$7.00 a pair and after paying all your overhead expense, put \$1.25 on each sale in the bank. Time goes on. You spend

more for your advertising. People learn your shoes are just as good as ever but now sell for \$7.00 instead of \$8.00. Your customers increase. You hire an assistant, buy your materials in larger quantities, save money by paying cash and are making more profit at decreased cost to the customer.

In just this way, many of our larger nationally known manufacturers have built up their volume and are satisfied with a profit as low as 1 and 2 per cent on their enormous production.

I have asked about fifty advertisers the effect of advertising on the cost to the consumer. These concerns spend close to \$4,000,000 a year for advertising and you can rest assured they know what they are talking about when they state that advertising DOES NOT INCREASE THE PRICE TO THE CONSUMER, BUT DECREASES IT.

The amount of the country's business is estimated in normal times between \$40,000,000,000 and \$50,000,000,000 annually; \$350,000,000 to \$400,000,000 is spent for advertising each year, so if these figures are correct, and I believe they are approximately so, the total advertising cost is but one per cent of the total business.

The price which is paid for advertising is not added to the price which the customer must pay. Advertising increases distribution, creates new markets, decreases manufacturing costs and enables manufacturers to reduce their prices to a level which could not have been obtained without advertising.

A manufacturer of spark plugs told me he has reduced his selling cost, through advertising, seventy per cent in four years and here is proof in his reduction of price. In 1905 his spark plugs sold for \$1.50 to \$2.50, with a continual decrease until the price for 1917 was 75 cents to \$1.25, and this in face of high raw material costs.

A well known motor car company credits advertising for a consistently reduced price. It spends only one per cent of its sales receipts for advertising but see how their prices have fallen. In 1905 its car sold for \$1,250. In 1915 the price had fallen to \$1,050, and in 1917 the low price of \$875 was reached. I could give you many such instances, but they all tell the same story—a story of volume built by advertising which decreased the price to the consumer.

There can be no question as to the benefits the consumer derives from advertising. Only theorists who know nothing of manufacturing—nothing about what the wonderful leverage of volume does toward price reduction prate about advertising increasing the cost to the consumer.

GAS BILLS FOR DISTRICT NO. 2

Are now due and payable at the Company's office, 58 W. Main St., and must be paid on or before August 20th in order to save the discount.

STUDY THE MAP

It shows the time for reading the meters and the paying of gas bills for each District. Should you change your residence to another district the time for paying your gas bill will change as indicated on the map in that district.

DISTRICT 1

HUDSON AVE. AND WEST OF HUDSON AVE. AND NORTH OF WEST MAIN STREET AND NORTH OF RACCOON CREEK. WILL BE READ ABOUT 20TH TO 30TH OF EACH MONTH. BILLS PAYABLE 1ST TO 10TH, INCLUSIVE.

DISTRICT 2

ALL EAST OF NORTH AND SOUTH THIRD ST. TO CORPORATION LINE. WILL BE READ ABOUT 1ST TO 10TH OF EACH MONTH. BILLS PAYABLE 11TH TO 20TH, INCLUSIVE OF EACH MONTH.

DISTRICT 3

ALL ON AND SOUTH OF W. MAIN ST. AND SOUTH OF RACCOON CREEK TO CORPORATION LINE. WILL BE READ ABOUT 10TH TO 20TH OF EACH MONTH. BILLS PAYABLE 21ST TO LAST DAY OF EACH MONTH.

The Teeth and Beauty.

So many people are so apt to forget that the teeth and the condition of the teeth is just as important a part of the body as any other members, and should receive as much care.

Not only is it necessary for the sake of the teeth themselves, to have them properly treated and regularly cared for, but physicians are becoming more and more conscious of the fact that the teeth are largely responsible for the mental, moral and physical condition of the individual.

A few of the better known illnesses which have been traced to bad teeth include forms of rheumatism, caries, scurvy, anemia, glandular swellings, neuritis, toxic neuritis, gastritis, appendicitis, diabetes, nephritis, siphilitis, laryngitis and heart trouble.

Brush the teeth night and morning, and if possible, after each meal. It is especially important, however, to remove all decaying particles before going to sleep, less they cause poisonous

Our Boys and Girls

A child of two or three years of age can be amused for hours by this simple device. Bend two pieces of broom straw that are about an inch in length so that each forms an inverted V, with sides of equal length. Set them astride a long straw four or five inches apart, and holding an end of the straw in each hand, rest the "feet" of the short straw on a bare table or other flat smooth surface with their points toward each other at an angle of forty-five degrees.

By slightly moving the long straw, you can make the two small pieces move rapidly toward each other. Meeting midway with points touching, they will often stand braced together so firmly that you can remove the long straw. Instead, you dislodge them by a slight jar, one will pass the other and they will continue on their way.

Billy—"In days of old the gallant used to kiss his lady's hand." Miffy—"What a bother to have to take off one's glove."

Every Day Etiquette

"When a maid opens the door, should you hand her your card in asking for the lady you are calling on, or should you only give your name and give your card when you are leaving?" Inquired Henry.

"If you are a frequent caller it is not necessary to give your card to the maid when she comes to the door, as she will know whom to announce to her mistress. Under other circumstances you should hand your card to the maid when she opens the door," said Uncle Joe.

Many a man who is always talking about lending a hand wants a pretty high rate of interest on it.

August Prices Seem Like Old Time Prices

This is in face of the greatest upheaval in prices this country has ever seen and probably ever will see again. We are just entering the fall market prices and everything you get early will be just that much saved.

When You Think of Men's Fine Shirts 98c

don't it make you feel like walking in now and getting the number you will want for the next six months—you will save from 27 to 50c a piece on these. There are percales and madras in all sorts of fancy and dark stripes on light grounds and dark shirts for later fall wear.

When You Think Of Ladies Street Dresses At \$4.00, \$6.00 and \$7.50

don't you realize if you don't get them in this sale you will never get them at these prices. Some of these are all white—others are colored lawns—voiles—ginghams and a general assortment of summer fabrics. It's your chance.

When You Think of Little Girls Dresses At 50c, 75c, 98c and \$1.12

can't you picture your girl going to school in a couple of weeks in one of these beautiful little dresses that cost you less money than you could buy the material. We won't have these in September and we tell you it is now or none at these prices.

When We Tell You Childrens Good Hose 25c And Ladies Good Hose 25c

don't you see the August sale is offering you every day items that you will want soon and ought to buy now—or if you are going to make the dresses for school come in now and

Look Over--- The Percales 25c yard And Dress Gingham 25c yard

This will be the last week for many of these lines—They are below the market and when the complete fall lines are on sale you will be very glad you bought early. Fall wants in August.

Come In To Our August Sale!

W. H. Mazey Company

A FEW ECHOES FROM W. S. S. DRIVE OF LAST WEEK

In the face of intolerable weather conditions, Licking county's War Work Organization conducted a campaign for the sale of War Savings stamps last week that brought remarkable results. With cash sales from January 1 to date amounting to more than \$800,000 and thousands of pledges, it is believed that Licking county will go over the top before the close of the year. To "go over" the cash sales must total \$1,236,180.

Many of the township chairmen exceeded their quota of stamp sales in last week's four-day W. S. S. drive. The county districts had a bigger sales record than the city and the township chairmen are naturally feeling a bit "chesty" over their splendid achievement.

In the Newark city drive the division headed by Frederic M. Black took first honors. K. I. Dickerson being a close second.

The W. S. S. pledge-cards are now being assorted, classified and copied. Within a few days the cards will be distributed among the banks and postoffices. Bankers and other agents are requested to furnish stamps to all applicants and to make a record of purchasers in order to credit the pledge-cards as soon as they are received.

Last week's W. S. S. stamp sales in this county exceeded \$37,000. On Saturday, August 10, the sales at the Newark postoffice alone exceeded \$4000, and some of the banks sold their entire supply of stamps.

See the "Victory List" in the courthouse park.

The richest man in America may not own more than 200 W. S. S. An investment in War Savings stamps is so good, so attractive, that Uncle Sam has placed that limit. Two hundred \$5 stamps, not taxable, paying 4.27 interest, and with a guarantee of your money back, principal and interest, any time upon 10 days' notice—cost \$838 this month. This makes W. S. S. the world's best investment.

Licking county's "Victory List" (buyers of 200 W. S. S.) is still growing. It will take a large number of Limit Club members to put Licking over the top.

Rural Mailcarrier Frampton of Black Run, has sold more than \$11,000 worth of W. S. S. but the credit for his big sale goes to Muskingum county, though practically all of his sales were made to Licking county people. In order for this county to receive credit the stamps must be bought from a Licking county bank or postoffice or agent who in turn gets his stamps from a Licking county bank or postoffice. Mr. Frampton has sold 200 W. S. S. to Daniel R. Rector, Joseph Chaney, Henry A. Noland and M. R. Mason, but the credit for these Limit Club members goes to Muskingum county.

During the past several days additions to the \$1000 War Savings society (buyers of 200 W. S. S.) have been published in the Newark papers. The complete list is published in today's Advocate.

During last week's drive a solicitor stopped at a house where he felt sure he could obtain a thousand-dollar subscription, but he came away empty-handed. A little later another solicitor stopped at the same house, knocked at the kitchen door and went away with a \$1000 pledge signed by the maid. And the pledge is a good one, too.

Granville has sold \$74,000 worth of W. S. S. and seems to be just getting started. Granville has 36 members of the Limit Club.

Perry, Fallsburg, Union, Monroe, Eden, Mary Ann, Licking, Granville, Bennington, Liberty—these are some of the townships that distinguished themselves in last week's W. S. S. drive.

General Chairman E. C. Wright, the members of the elective committee, the township chairmen, the division leaders, the captains and district chairmen, and the 500 members have good reason to be proud of Licking's county War Work Organization for efficient work in the war chest, Liberty Loan and W. S. S. campaigns.

The W. S. S. pledges in order to count must be turned in cash. Buy W. S. S. now and make the cash sales grow.

As between the high and the low the man who gets along is the man who does his level best.

MOTHER OF SIX PRAISES TANLAC

Took Son's Advice and Got the Tonic That Brought Back Health and Strength.

"My health is better than it has been for years," said Mrs. Sarah Corbin, 497 West Walnut street, Columbus. "and it is all due to Tanlac. I used to have trouble with my stomach and after eating the food fermented and caused gas that made me feel bloated. The gas pressed up against my heart and I felt short of breath. The pain in my stomach sometimes drove me almost distracted."

"My nerves became all unstrung and I was so cross my children often asked me why I didn't take something for my health. One of my sons brought home a bottle of Tanlac and insisted that I take it. I finally did so and I am glad that I did. The pain and misery in my stomach is all gone and I am now happy at my work. My nervousness has gone and little things don't irritate me any more. Tanlac is surely a great remedy for the stomach and nerves and I am recommending it to all my friends."

If you are in need of a good tonic get Tanlac today. It will do for you what it has done for thousands of others.

Tanlac remedies are being introduced in Newark at Berman's Arcade drug store. Tanlac may also be procured at the Evans pharmacy (Warden Hotel block, east side square, Newark), and to Hebron Drug store, Hebron, O.—(Adv.)

SUPT. HAWKINS

INTRODUCES NEW IDEAS IN THE MANAGEMENT OF THE CANTON PUBLIC SCHOOLS.

Recommends New Schedule of Hours and Says Definite Time Will be Devoted to Citizenship.

The following appeared editorially in one of the Canton papers recently, regarding the schools of that city, of which Wilson Hawkins, former superintendent of Newark schools, is now the head:

Nothing is closer to the home or more important in its bearing on the future nation than the public schools and Canton is watching with much interest the work of Wilson Hawkins, recently elected superintendent of the Canton public schools, who is now shaping the plans for the work to open next month.

Such of his ideas as have been advanced at this time appear progressive at this time. They have the ring of Americanism in them and they seem to be filled with common sense linked up with a progressive spirit in keeping with the times.

The outcome of his work and the success he attains depend largely upon the co-operation he receives from parents and from the teaching staff. Any change always brings adverse criticism from those who are willing to retain yesterday's machinery for dealing with today's problems and it is doubly incumbent upon those who want to see Canton's schools abreast of the times to give their support to Superintendent Hawkins.

It is a favorable sign that he has shown great willingness to be open and frank in all his work. He has indicated clearly that there are to be no secrets in the operation of the schools and this fact in itself tends to gain for his good confidence.

Another publication in Canton speaking of a recent meeting of the board of education said:

To give more time to the study of a new course in Americanism, the board of education Monday evening, on the recommendation of Superintendent Wilson Hawkins, adopted a new schedule of hours for the grades. By this new arrangement, the working day in the grades will be increased from 15 to 30 minutes.

"We are bringing about this change to provide more time for the study of Americanism," said Superintendent Hawkins. "During the coming school year all teachers will be instructed to give a certain definite period of time each day to work in community civics along the lines of citizenship. The study of current events and the hearing they have on the making of the future citizen, will take up a part of the time."

WAR STAMP PLEDGE.

Columbus, Ohio, August 12.—Thousands of deferred registrants in Columbus today promised to buy or sell \$200 (final redemption value) of war saving stamps, according to plans that have been made for the activity of the men not in immediate liability for war. At one meeting 1,500 arose and made the pledge. These pledges are to be redeemed at once.

REV. C. G. HAZLETT AT GETTYSBURG, PA.

Rev. Calvin G. Hazlett, pastor of the First Presbyterian church who was relieved of duty here to enter war work writes: "I have a longing to get a look at an Advocate. As my family has gone from 365 Hudson avenue for the summer, will you please discontinue my paper by carrier and have it mailed to me here. Have just begun my work here and find it attractive and full of interest. I am too new yet to report anything of general interest. Faithfully, Calvin G. Hazlett, Box 52, Gettysburg, Pa."

Musings—"We all appreciate the good things of life." "Yes, but just in order to be appreciated a fellow hates to be known as a good thing."

The Municipal University of Akron Military Training Under Army Officers. Scholarships In Manufacturing Production.

Students taking military training will have the status of regularly enlisted men in the army, but will not be called for service until they reach the age of 21 years. All uniforms and equipment will be furnished by the government. Those doing the best work will be in line for commissions upon graduation, although no definite guarantee can be made at this time. The War Department urges high school graduates to enter college in the fall, and has definitely announced its policy to keep all college men in college until of age, and to train them for active service by the plan outlined.

Scholarships

The large rubber companies of Akron have established scholarships in Manufacturing Production designed to train men for responsible positions in their organizations. Students work alternate two-week periods in the factories and are paid for their work at the rate of \$75.00 per month for time worked. In addition, the company pays all tuition and fees at the University. For further information address the Engineering College, Municipal University of Akron, Akron, Ohio.
